application is the key

CUVA™

Connecting- Understanding- Valuing-Appreciating

PROFESSIONAL MINDFULNESS LEADING
TO BETTER RESULTS

The modern world needs decluttering and a lot more simplicity. This needs progressing on our abilities to make connections with people, understand their situations and be generative in our listening. All this to provide beneficial solutions to the people who need us. Yes, all this for better results too.

WELCOME PROFESSIONAL MINDFULNESS
THROUGH GROVAL EULER'S

About the Facilitators

About Dinkar

Dinkar is the founder of Groval Euler's Consulting and Kabir Learning Foundation . Before founding his companies , Dinkar served Mercuri Goldmann, Mercuri Urval as a senior consultant and with Better Future (Nederlands based MNC consulting firm) as their MD (APAC). He has conducted various International and Indian projects on sales capability development, Service excellence and leadership enablement. He has enabled over 10000 resources to enhance their sales, service and business performance capabilities. He has been associated with more than 250 companies through his consulting engagements. He is a postgraduate in Mineral Engineering from Indian School of Mines (IIT - Dhanbad), ICF Life Coach, LIFO Trainer, Celemi Trainer for Business Simulations and Belbin Certified accredited Team Coach (With Merit) and a Doctorate in Management studies.

About Varadayini

Varadayini is a resilience expert for high-performance teams and competitive sportsmen. She is a Sports Psychologist from Loughborough University (UK) and she is BA (Psychology) from Mumbai University. She has deep interests in using mindfulness concepts for building the capabilities of ambitious individuals and teams. She focuses on developing the mental skills required to develop resilience and a mindful outlook, holistically. Varadayini has also worked with high performing teams like the Asian Games Indian Rowing Team of 2018 as well as Ranji cricket players who are under constant pressure to get selected for their state team. She is a part of our team, working on projects to build high-performance teams for Corporates.
